2026 Bordeaux Exposome Symposium

Mapping the Exposome to Prevent Alzheimer's Disease and Related Dementias

17–19 June 2026

Bordeaux, France

This symposium will bring together leading scientists and trainees interested in integrating environmental exposures into research on Alzheimer's Disease and Related Dementias (AD/ADRD). It aims to foster new collaborations between environmental health, exposomics, and AD/ADRD research communities across Europe, the United States, and beyond.

Travel Awards

Travel awards are available for graduate students, residents, postdoctoral fellows, and junior faculty (within 3 years of appointment) who are presenting a poster at the symposium. Selected applicants will be awarded up to \$1,200 US Dollars in reimbursed travel and accommodation expenses to support their participation. **Applications due January 30, 2026**
